

Tile lifting handle

Used to tighten and loosen the red clamping crew on the UNIKA pedestal to make it self-levelling or fixed.

Made in France

Application & use

The UNIKA release wrench is an accessory designed to make it easier and quicker to release the UNIKA self-levelling or fixed stud.

Simply tighten and loosen the red clamping crew on the pedestal head with the key.

Compatible with UNIKA pedestals range only.

Product advantage

- + Allows UNIKA pedestals to be self-levelling or fixed
- + Easy to handle
- + Quick and efficient to use
