

## Tile lifting handle

For easy lifting of tile, concrete or porcelain stoneware slabs installed on pedestals.

Made in France

### Application & use

**The slab-lift handle is an accessory designed for easy lifting of tile, concrete or porcelain stoneware slabs installed on adjustable pedestals.**

It allows quick access to the pedestals to adjust their height, as well as to elements located beneath the terrace, such as cables or spotlights.

Compatible with tiles with joints of at least 3 mm.
