

## YEED ClipSystem

Enables the aesthetic closure of the end of the terrace while stabilizing the slabs.

**Fabrication Française**

### Application & use

**The YEED ClipSystem, made of stainless steel, is a 2 in 1 accessory : Firstly, it closes the terrace aesthetically by simply clipping onto the ends of the terrace.**

**Secondly, this durable lateral closure accessory also replaces the slab plate whose function is to stabilize the slabs at the ends of the surface and thus avoid any sensation of tilting.**

It is compatible with the pedestals of paving range from 40/60 mm. It is made up of 2 parts:

the top clip which is clipped onto the 2 lateral lugs on the head of the pedestal, and the bottom clip which is clipped onto the base of the pedestal.

### Product advantage

- + Allows the aesthetic finish of a terrace on paving pedestals
- + Stabilises the paving at the side of the terrace
- + Stainless Steel is rot-proof
- + Resistance to heavy charges
- + Resistance to temperature variations and atmospheric agents
- + No tools are required for the installation of the terrace with its accessory

### Technical characteristics

**Composition :** Inox 304 LAF BRUT

**Colour :** metal grey

**Dimensions :** Top clip : 190.97 x 29.67 mm / Bottom 245.31 x 29.67 mm

**Weight :** Top clip 0,043 kg / Bottom clip 0,056 kg

**Resistance to temperatures :** +350°C /

**Resistance to atmospheric agents :** UV and freeze
