

Tightening Key

UNIKA pedestals can be adjusted in height thanks to a double system:

Manually with the adjustment ring or on top with the YEED tightening key.

Thanks to this key, it is possible to adjust the height of the pedestals even after the terrace is finished and without having to remove the coating: simple, fast and efficient !

Application & use

During or after the terrace construction on pedestals, it is possible to adjust the height of the terrace at any time thanks to the YEED tightening key. It fits directly into the center of the pedestal head and can be handled by quarter turn. The key is compatible with all UNIKA pedestals.

Technical characteristics

Composition: stainless steel

Color: grey

Origin: France

Garantee: 10 years

Conformity: norm DTU 43.1

Use: pedestrian only

Weight: 180g

Length: 125 mm x 185 mm

Thickness: 3,8 mm

Resistance to temperatures: from -40°C to +60°C

Resistance to atmospherique agents: UV and frost

Load resistance: up to 1 ton

Product benefits

- + Easy height adjustment at any time during construction
- + Time saving
- + Praticity: no need to remove the flooring to adjust the height
- + Guarantees the flatness and stability of the terrace
- + Robust material in stainless steel
- + **Compatible accessories**
 - **UNIKA 20, 60 and 120 mm extension**
 - **UNIKA slab and wood pedestals 30/40 mm and 40/60 mm**
